IDREFJÄLLVECKAN

ORIENTEERING 27 JUNE - 1 JULY 2021

Welcome to Idre Fjäll Week 2021 and five exciting orientation days in Dalafjällen, Sweden. This year's competitions will offer new maps in both classic forest- and bare mountain terrains located around Idre Fjäll.

five days in fjällen

New for this year's program is that we start with a middle-distance competition on Sunday 27 June with start from 3pm in the afternoon, so you have more time to get here in time for the race. More news, we will use EMIT EKT punching system this summer.

Outside the competing, there is much else to see and do in both Idre Fjäll and nearby areas. We will tell you more about this in this invitation and give you a little taste of what the surroundings can offer.

There are different options of accommodation at Idre Fjäll and you can read more of those in the invitation (Bulletin).

Because of the Corona pandemic we are following the current situation very close. We are ready to adapt our event if required but we have hopes to be able to realize it as good and safe as possible.

PRICE CEREMONIES AT THE O-SQUARE

“Idrefjälltorget” (Idrefjäll Square) will be the gathering place after the competitions and we call it the “O-Square” with activities for everyone.

Prize giving for today’s competitions also takes place here, of course, and we hope that the “square” will be the gathering point for everyone after the competitions - with everything from “map analysing”, “food”, entertainment music or just a little “hang out” with your friends.

There are prizes for the youth classes, but every day there is a significant drawing among all starters where you can win great prizes from Idre Fjäll.

SUCCESS RETURNS - “QUIZ NIGHT”

Last year, over 50 teams competed in this fun and exciting competition. Per Forsberg is back to hold this Quiz evening

PUNCHING SYSTEM - EMIT EKT

Idrefjäll Week 2021 will use the punching system EMIT EKT. If you already have an EMIT EKT tag, you can use this if it is not older than 5 years. For those who do not have their own EKT Tag, we will offer these free of charge to borrow for the competition days during Idrefjäll Week 2021.

Please note that we use the EMIT EKT runner tag (the one with the backup patch) and NOT the EmiTTtag (touchfree).
